## 1 Mess Facility for Female Students

The institution recognizes the importance of providing convenient and inclusive dining options for female students. As such, a separate hostel mess exclusively catering to the needs of female students is available within the hostel premises. This dedicated mess facility ensures that female students have access to nutritious meals in a comfortable and secure environment. Moreover, a canteen is conveniently located within the mess area, offering a variety of refreshments such as tea, coffee, and snacks to cater to the specific preferences of the female students. This arrangement not only addresses their dietary requirements but also creates a welcoming space for social interaction and relaxation. By offering a dedicated mess facility for girls, the institution prioritizes their comfort, convenience, and overall well-being during their stay campus.
