Name of the Event	:	INTELLECTUAL PROPERTY & AI.
Date/ Day of the Event	:	26-08-2021
Time	:	10:00 am to 12:30 pm.
Venue	:	SEMINAR HALL SSE.
Number of person attended	:	69
Chief Guest	:	Mr.Prateek srivastava
Convener	:	Dr.Mohan Reddy
Coordinators	:	Ms.Swetha
Platform	:	Offline mode

### About the Program

This imparts information and abilities in both theory and practice for research design and methodologies, such as quantitative, qualitative, and mixed method research. The specialization offers advanced courses in measurement and quantitative research methods, structural equation modeling, scale validation, single subject/case research, qualitative case study, self-study research, mixed method research, and program evaluation in addition to foundational courses in both quantitative and qualitative methods.

### Objective of the Program

The objective is to ignite the start spirit in the budding innovators by guiding them on how to convert their innovative ideas and emerge as successful startups becoming a startup is an important career decision and to plunge into the domain requires right skill set, attitude and behavior.

## About the Chief Guest

Mr.Prateek is a practicing patent attorney in India, he has qualified ECE engineering and advocate registered with bar council of India, .he is empanelled patent startup facilitator under the government of India .

## Summary of the Event

EDC has organized a one day workshop on "workshop on ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS." The offline event took place on 18-08-2017. Mr. Sanjeev Bikhchandani was the featured speaker at the event. The function began precisely at 10:00 a.m. All of the students and faculty members were invited to participated. This workshop had a total of 92 participants. Dr.A.Senthil Kumar, Principal/SSE, read the Chief Guest's welcome note and welcomed all attendees, including students and faculty members. The resource person started at 10:00 a.m. and lasted until 12:30 p.m.

## Key Outcome of the Event

IPR provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc.

### About the Program

It is important for individuals and businesses to understand IPR laws and their implications to protect their creations and inventions properly. Consulting legal experts and intellectual property professionals can help creators navigate the complexities of IPR and develop effective strategies to safeguard their intellectual assets.

### Objective of the Program

The purpose of IPR is to strike a balance between promoting innovation and ensuring that society benefits from new ideas while also providing incentives to creators and inventors. By protecting their creations, innovators have the opportunity to gain financial rewards for their efforts, which further encourages them to continue contributing to the development of society.

### About the Chief Guest

Nagendra's passion for innovation and patent law led him to become an avid patent observer and analyst. He keeps a close watch on the latest developments in the patent world, tracking emerging trends and changes in patent laws across different jurisdictions. As a patent observer,

and social and cultural well-being. The intellectual property system helps to strike a balance between the interests of innovators and the public interest, providing an environment in which creativity and invention can flourish, for the benefit of all.

### **TO PROMOTE INTELLECTUAL PROPERTY**

There are several compelling reasons. First, the progress and well-being of humanity rest on its capacity to create and invent new works in the areas of technology and culture. Second, the legal protection of new creations encourages the commitment of additional resources for further innovation. Third, the promotion and protection of intellectual property spurs economic growth, creates new jobs and industries, and enhances the quality and enjoyment of life.

Third, the promotion and protection of intellectual property spurs economic growth, creates new jobs and industries, and enhances the quality and enjoyment of life

### **TYPES OF INTELLECTUAL PROPERTY**

Trademark

Patent

Copyright Industrial Design

Geographical Indication

Trade Secret

### **TRADEMARK**

The Trade Marks Act 1999 ("TM Act") provides, inter alia, for registration of marks, filing of multiclass applications, the renewable term of registration of a trademark as ten years as well as recognition of the concept of

**TOPIC:** Intellectual Property Rights(IPRS) and IP Management for Startup

**Conducted by:** MHRD-IIC CELL ,MHRD.

**Date:**13.04.2022

**Venue:** GOOGLE MEET

**Introduction:**

Sanskriti school of Engineering Organised an Webinar Programme on “Intellectual Property Rights(IPRS) and IP Management for Startup“ by Mr. Prateek Shrivastava, IP Attorney, for the benefit of its faculty and students on 13-04-2022.

**Resource Person details:**

Mr. Prateek Shrivastava,  
IP Attorney,  
INDIA.

**Description:**

The lecture started with an introduction of Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time. The most well-known types are copyrights, patents, trademarks, and trade secrets. The modern concept of intellectual property can be traced back to 17th century though it was not until the late 20th century that intellectual property became commonplace in the majority of the world’s legal systems. With the rapid increase in the globalization and opening up of the new avenues in India, the “Intellectual Capital” has become one of the key wealth drivers in the present era. There are different country specific legislations, as well international laws and treaties that govern IP rights.

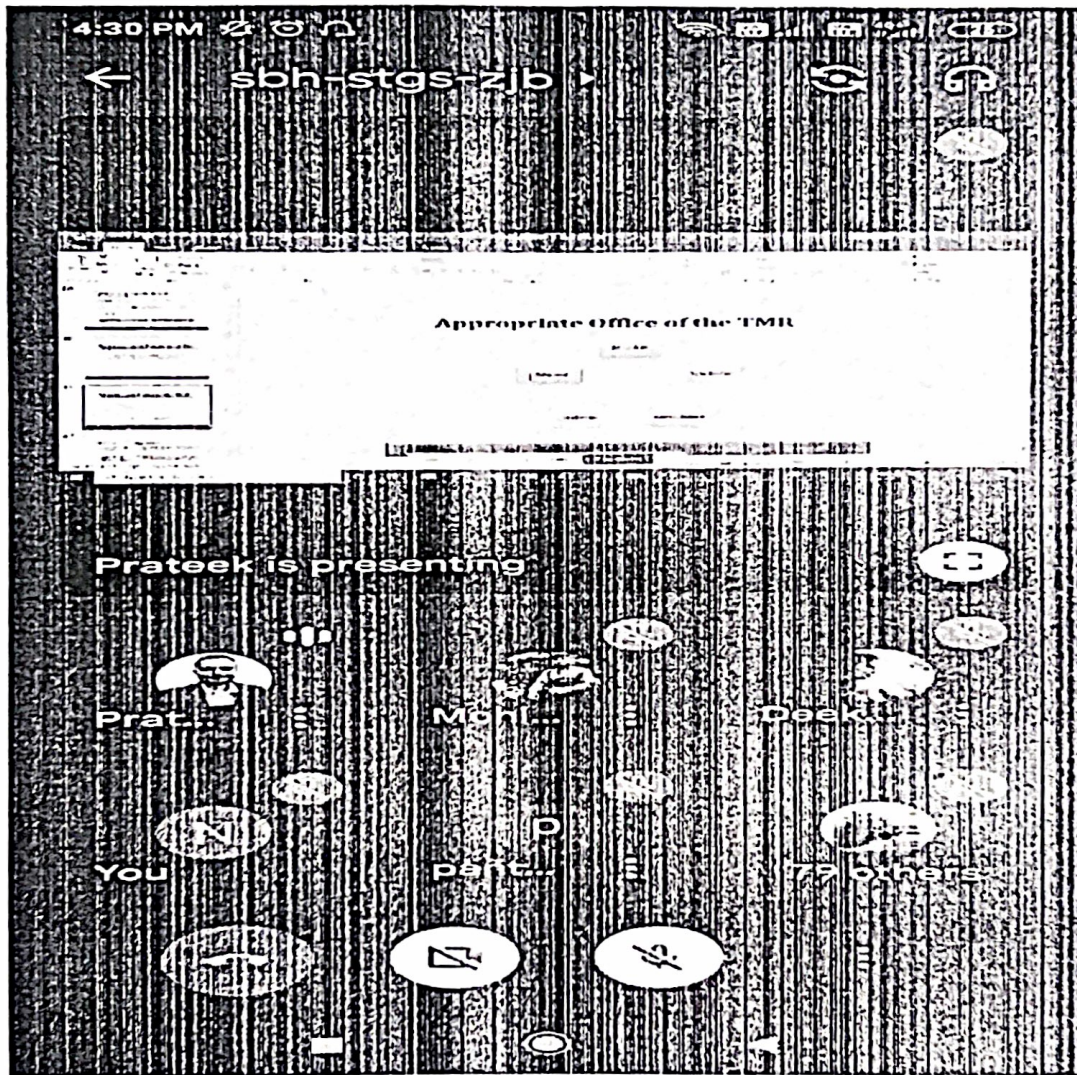

An efficient and equitable intellectual property system can help all countries to realize intellectual property’s potential as a catalyst for economic development

well-known ' marks, etc. The trademark symbol, TM, is a symbol to indicate that the preceding mark is a trademark, specifically an unregistered trademark. It complements the registered trademark symbol, ®, which is reserved for trademarks registered with an appropriate government agency Trademarks means any words, symbols, logos, slogans, product packaging or design that identify the goods or services from a particular source. As per the definition provided under Section 2 of the TM Act, "trade mark" means a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others and may include shape of goods, their packaging and combination of colors. The definition of the trademark provided under the TM Act is wide enough to include non-conventional marks like color marks, sound marks, etc. As per the definition provided under Section 2 (m) of the TM Act, "mark" includes a device, brand, heading, label, ticket, name, signature, word, letter, numeral, shape of goods, packaging or combination of colors or any combination thereof. Accordingly, any mark used by the corporates in the trade or business in any form, for distinguishing itself from other, can qualify as trademark. It is quite significant to note that the Indian judiciary has been proactive in the protection of trademarks, and it has extended the protection under the trademarks law to Domain Names. Indian website is <https://ipindiaonline.gov.in/>

One must do a proper due diligence before adopting a trademark. The trademarks, can be broadly classified into following five categories:

Vote of thanks given by Ms. N.PRANAVI, Assistant Professor Dept of ECE. SHE thanked Mr.Vijayabhasker Reddy, Chairman, SGI , Principal Dr.A.Senthil Kumar, for their great support towards the successful completion of webinar, also She thanked the faculty members for their support and
