

## ABOUT THE COLLEGE

Sanskriti School of Engineering is in Puttaparthi. It has always been one of the most well-known Global spiritual villages over the century with the blessings of Bhagawan Sri Sathya Sai Baba.

Prashanthi Nilayam or "The Abode of Peace", draws millions of devotees from all corners of the world. The edifice of development – spiritual, social, and economic – was a well thought out splendor-built brick by brick, through unconditional Love, special attention, and sacrifice of Bhagawan Sri Sathya Sai Baba. Some of the model institutional structures were developed in education, health and water supply being the necessities of human life and progress. Puttaparthi has grown from a humble village of 20 families in the 1920s to the most amicable resource facility with Super Specialty Hospitals, Airport, Railway Station, 24/7 water and electricity.

- Program highlights:**
- Leadership Development: Discover and cultivate your leadership potential, learn effective communication and interpersonal skills, and develop strategies for managing teams.
  - Project Management: Gain essential project management skills, learn to plan, execute, and monitor projects

effectively, and improve your ability to meet deadlines and deliver successful outcomes.

- Communication and Presentation Skills: Enhance your communication skills, both written and verbal, and improve your ability to deliver impactful presentations that captivate your audience.
- Time Management and Productivity: Learn techniques for prioritizing tasks, managing your time efficiently, and maximizing your productivity to achieve optimal results.
