Visitor Log Register Implementation

As part of the institution's security protocols, a visitor log register is diligently maintained to document the information of individuals entering the college premises. This practice ensures a systematic record of all visitors and their relevant details. By keeping track of visitors, the institution can enhance its overall security measures and maintain a controlled and accountable environment within the campus. The visitor log register serves as a valuable resource for reference and investigation purposes, should the need arise. This meticulous record-keeping demonstrates the institution's commitment to maintaining a safe and secure environment for its students, staff, and visitors.
