I Faculty Advisors for Student Mentoring and Counseling

To provide guidance and support to students, both male and female, the institution assigns faculty advisors who serve as mentors and counselors. Each faculty advisor is responsible for a group of 20 to 25 students, ensuring personalized attention and assistance. These advisors play a crucial role in addressing any challenges or issues that students may encounter during their academic journey. Whether it pertains to academic concerns, personal difficulties, or any other matter, faculty advisors are readily available to provide guidance and counseling as per the individual needs of the students. By offering individualized support and counseling, the institution aims to ensure the overall well-being and success of each student, irrespective of their gender.
