

4th ICCME 2020

INTERNATIONAL CONFERENCE
ON CHEMICAL & MATERIAL ENGINEERING

“Role of Chemical and Material Engineering in Ensuring Food, Water and Energy for Sustainable Development Goals (SDGs)”

Important Date

Abstract Submission	Acceptance Abstract	Full Paper Submission	Early Bird Registration	Final Regist. Fee	Conference Date
July 13, 2020	July 27, 2020	August 25 2020	September 8 2020	September 29 2020	October 6 – 7 2020

Registration Fee :

Category	Presenter (Local)	Presenter (Foreign)
Professional	500,000 IDR	50 USD
Students	250,000 IDR	25 USD
Participant	100,000 IDR	25 USD

*excluding publication fee

Please note that due the Covid-19 pandemic issue all over the world, ICCME 2020 will be held as an ONLINE CONFERENCE (REMOTE PRESENTATION THROUGH VIDEO MEETING VIA ZOOM) on October 6-7th, 2020

Keynote Speakers

Dr. Ir. Harsawardana, M Eng
Palm Oil Expert – Yogyakarta, Indonesia

Prof. Dr. Ahmad Zuhairi Abdullah
Universiti Sains Malaysia, Malaysia

Prof. Masaru Watanabe
Tohoku University, Japan

Prof. Dr. I Nyoman Widiasta, ST, MT
Chemical Engineering, Universitas Diponegoro,
Indonesia

Prof. Le Thi Kim Phung
Ho Chi Minh City University of Technology,
Vietnam

Submission link : <http://bit.ly/2InBG7X>

Conference Online Via : ZOOM

Topic :

- Advanced and Smart Material Development
- Catalyst and catalysis
- Synthesis and Membrane Application
- Adsorbent Materials
- Chemical Reaction Engineering
- Heat, Mass and Momentum Transfer
- Thermodynamics
- Separation and Purification Technology
- Bioprocess and Biochemical Engineering
- Clean Production and Waste Management
- Energy Conversion and Management
- Sustainable Development and Higher Education in Chemical Engineering
- Food Science and Technology
- Modelling, Simulation, Control and Analysis of Manufacturing Processes

Publish in :

All papers from ICCME 2020 will be reviewed and accepted papers will be published in Conference Proceedings (Print and Online).

Selected papers will be published in either :

[International Journal of Renewable Energy Development](http://www.ijred.com)

<http://ejournal.undip.ac.id/index.php/ijred>

ASEAN Journal of Chemical Engineering

<http://asean.jche.ugm.ac.id/>

The college campus spreads over 34 acres of lush green environment near Muddenahalli, the birth place of Architect of Modern India, Sir M. Visvesvaraya. The college is situated on Bangalore - Hyderabad National Highway (NH-44) about 30 Kms from Bangalore and 20 KMs from Bengaluru International Airport.</p> <p>The institute is managed by Sri Adichunchanagiri Shikshana Trust (S), with the Divine blessings and leadership of his holiness Jagadguru Sri Sri Sri Dr. Nirmalanandanatha Swamiji. College offers UG Courses and 8 PG Courses in The College has good Infrastructure, Library facilities, modern computerized facilities, Internet connectivity, Placement Cell, Transportation facilities and excellent Indoor and Outdoor sports facilities.</p> <p>ABOUT THE DEPARTMENT:</p> <p>Department of CSE was established in the year 1986, accredited by NBA and offers UG course in Computer Science & Engg. with an intake of 150, PG course in CS&E and Ph.D., M.Sc. (Engg) by research with VTU recognized R&D center. Department boasts of qualified faculty and well equipped laboratories. The department conducts a broad range of multi-disciplinary research initiatives in cutting edge technologies having MoU's with industries like Infosys, TCS, Hircraft, CNS, Technologies.</p>

Venue: Research Lab 1, ESB BLOCK,
KATTANKULATHUR-603203

ABOUT EEE DEPARTMENT :

The EEE department of SRM University aims to achieve a balance between depth of knowledge acquired through specialization and breadth of knowledge gained through exploration. The courses offered by the department provide a comprehensive foundation in the core topics of EEE coupled with an area of specialization relevant to emerging engineering challenges. The EEE Department holds several national level conferences, seminars and workshops. These provide a platform for the staff and students to share their views and experience among industrialists, fellow researchers and academicians in the emerging areas of electrical engineering.

ABOUT TYPHOON HIL GmbH, Switzerland :

Typhoon HIL Inc. is the technological leader in the field of ultra-high-fidelity controller-Hardware-in-the-Loop (C-HIL) simulation for power electronics, microgrids, and distribution networks. They provide industry-proven, vertically integrated test solutions along with highest-quality customer support. The company was founded in 2008 and since then has been creating products distinguished by the ultimate ease of use, unrivaled performance, leading-edge technology, and affordability.

OBJECTIVE OF THE WORKSHOP :

To keep pace with the current technological revolution, educational institutions must change. New ways must be found to teach future engineers using a transdisciplinary approach; leveraging the possibilities offered by new tools that talented engineers are seeking, while providing them with practical experience that cultivate their creativity. Researchers and engineers now have access to affordable, high performance simulation tools that were previously too cost-prohibitive, except for the largest manufacturers and utilities. This workshop introduces the role and advantages of using HIL real-time simulation by answering three fundamental questions: what is HIL Real-Time simulation; why is it needed and where does it best fit. The tool is being used by a number of industries and has a good demand for trained engineers in Real Time Simulation.

COURSE CONTENTS

- *Basics of Real-time Simulation and HIL Technology
- *Introduction of Hardware in the Loop Simulation (Software)
- *Signal Processing Tool Box
- *Monitoring and Controlling with HIL SCADA
- *Capture/Scope
- *Test Scripts
- *PV Performance curve Analysis
- *Marine as a grid (Power Systems)
- *Electric Vehicle Charging (Drives)
- *Energy Storage (Power Electronics)
- *Rapid Control Prototyping
- *Applications in Grid & DER
- *Introduction of Grid Communication (Protocols)
- *Pre-certification with available standard test conditions.

One Day Workshop

On

3D PRINTING – A Technology of the era

On

30th August, 2017

Organized by

DEPARTMENT OF MECHANICAL ENGINEERING

COIMBATORE INSTITUTE OF TECHNOLOGY

(A Government Aided Autonomous Institution)

Coimbatore - 641 014, Tamil Nadu, India

TEL: 0422-2574071, 72, FAX: 0422-2575020

Web: www.cit.edu.in Email: principal@cit.edu.in

ABOUT THE COURSE

The next industrial revolution is all about personal fabrication, and it's happening now. 3D printing is poised to unlock the potential in every person to create, innovate and fabricate. It's already transforming manufacturing; soon it will change the world. This one day intensive workshop will broadly cover 3D printing and Additive Manufacturing (AM) which have been maturing significantly over last decade and have now been identified by all major Defense, Power Generation, Aerospace, Agriculture and Automobile Agencies as key enabling technologies. The advantages of AM are derived from the additional design capability gained that allows novel complex geometries with a little additive manufacturing cost. Hardware and components can be produced directly from the CAD model with minimal tooling and reduced delivery times. Participants will be benefited with basic to advanced level development of AM technologies from the world renowned expert in this area.

Key Features:

- ★ Additive Manufacturing Overview, Interesting Application and Innovation through Additive Manufacturing and 3D printing of Medical Implants.

ABOUT COIMBATORE INSTITUTE OF TECHNOLOGY

Coimbatore Institute of Technology (CIT), started in the year 1956 by late Sri. V. Rangasamy Naidu is reckoned for its academic and research excellence in engineering and technology. CIT is a Government Aided Autonomous Institution affiliated to Anna University, Chennai. CIT has a reputation with service of competent well qualified faculty members and dynamic management to set highest standards in engineering research and development. CIT offers undergraduate, post graduate and PhD programmes with curriculum of global standards, promoting the students to compete internationally. The institute has celebrated its Golden Jubilee in the year 2006 and has collaborations with leading frontier universities and industries in India and abroad for promotion of innovative engineering ideas.

ELIGIBILITY AND SELECTION

Faculty members and students from engineering colleges affiliated to Anna University, Chennai and Industry Professionals are eligible to participate in the programme. The total number of participants is restricted to 60 and selection will be based on first come first served basis.

On

3D PRINTING – A Technology of the era

On

30th August, 2017

Organized by

DEPARTMENT OF MECHANICAL ENGINEERING

COIMBATORE INSTITUTE OF TECHNOLOGY

(A Government Aided Autonomous Institution)
Coimbatore - 641 014, Tamil Nadu, India

TEL: 0422-2574071, 72, FAX: 0422-2575020

Web: www.cit.edu.in Email: principal@cit.edu.in

ABOUT THE COURSE

The next industrial revolution is all about personal fabrication, and it's happening now. 3D printing is poised to unlock the potential in every person to create, innovate and fabricate. It's already transforming manufacturing; soon it will change the world. This one day intensive workshop will broadly cover 3D printing and Additive Manufacturing (AM) which have been maturing significantly over last decade and have now been identified by all major Defense, Power Generation, Aerospace, Agriculture and Automobile Agencies as key enabling technologies. The advantages of AM are derived from the additional design capability gained that allows novel complex geometries with a little additive manufacturing cost. Hardware and components can be produced directly from the CAD model with minimal tooling and reduced delivery times. Participants will be benefited with basic to advanced level development of AM technologies from the world renowned expert in this area.

Key Features:

- ★ Additive Manufacturing Overview, Interesting Application and Innovation through Additive Manufacturing and 3D printing of Medical Implants.

ABOUT COIMBATORE INSTITUTE OF TECHNOLOGY

Coimbatore Institute of Technology (CIT), started in the year 1956 by late Sri. V. Rangasamy Naidu is reckoned for its academic and research excellence in engineering and technology. CIT is a Government Aided Autonomous Institution affiliated to Anna University, Chennai. CIT has a reputation with service of competent well qualified faculty members and dynamic management to set highest standards in engineering research and development. CIT offers undergraduate, post graduate and PhD programmes with curriculum of global standards, promoting the students to compete internationally. The institute has celebrated its Golden Jubilee in the year 2006 and has collaborations with leading frontier universities and industries in India and abroad for promotion of innovative engineering ideas.

ELIGIBILITY AND SELECTION

Faculty members and students from engineering colleges affiliated to Anna University, Chennai and Industry Professionals are eligible to participate in the programme. The total number of participants is restricted to 60 and selection will be based on first come first served basis.

Rai University

Established by Gujarat State Legislature under Gujarat Act No. 12 of 2012, Rai University provides world class education and empowering opportunities for all sections of society. Rai University promises to nurture young minds by developing intellectual and providing professional faculties with a service to the cause of society & prides itself as one of the leaders in providing quality education in Ahmedabad. Education can excel only if it is carried on with research. As per the vision and mission, Rai University is focusing on research and development initiatives. Rai University is committed to be one of India's leading universities, facilitating its students to recognize their zeal and potential enabling them to achieve their academic and professional goals.

About Science Department

The Department of Science under the School of Arts, Science and Commerce is offering undergraduate and post-graduate learning to the highest academic standards in a diverse disciplines like Physics, Chemistry & Mathematics. We aim to build a stimulating intellectual environment which will help to enable our faculties and students to excel in their knowledge.

About CRD Department

The Centre for Research & Development at Rai University offers Doctoral degrees - The most advanced and prestigious Degree that any University can confer. Research Scholars at Rai University get an opportunity to participate in research with their faculty mentors throughout their studies, and acquire varied research skills. PhD Scholars from Rai University are already working in Government and reputed private organizations at senior level. CRD regularly organizes Conferences, Seminars and Workshops to enhance academic exposure and nurture research skills of staff and students. Thesis of RU's researchers is continuously recognized, appreciated & published by Association of Indian Universities (AIU).

CONFERENCE ON BUSINESS CASE STUDIES

5th January 2018

Organized by

DEPARTMENT OF MANAGEMENT STUDIES
KONGU ENGINEERING COLLEGE (AUTONOMOUS)

Thoppupalayam (PO), PERUNDURAI 638 060, Erode Dt., Tamil Nadu, India.

U. Janta L.
Principal
Kongu Engineering College
Puttaparthi Road, Perundurai
Puttaparthi - 635 134.
Anantapur (D) A.P.

About Us

Kongu Engineering College established in the year 1984, approved by AICTE, New Delhi and affiliated to Anna University, Chennai, has completed 33 years of dedicated and excellent service in the field of technical education. The college offers 14 UG programmes, 19 PG programmes and 16 Research programmes in Engineering and Technology, and Applied Sciences. The college is accredited by NAAC with 'A' Grade. In NIRF ranking, the college bagged 1st rank among all Self-Financing Colleges in Tamil Nadu and 3rd rank in India and also 46th rank among all Engineering Institutions including IITs and NITs. The College has been ranked 1st in Tamil Nadu and 39th position at all India Level by 'Outlook Express', ranked 2nd in Tamil Nadu and 26th among Top Engineering Colleges of Eminence in India by 'Competition Success Review' and 3rd position in Tamil Nadu and 32nd among Private Engineering Colleges in India by 'The Week' Magazine. The college bagged 45th position among top 100 Best Engineering Research Institutes in India and awarded AAAA among top Engineering Colleges in Tamil Nadu by 'Careers 360' Magazine. The college is well known for its technical excellence, modern facilities, record of performance with excellent results and enterprising students.

Right from its inception in the year 1994, the Department of Management Studies at Kongu Engineering College offers the MBA Programme which is highly rated for its excellence, both in terms of imparting state of the art management education and inculcating social values to the students of the MBA programme. The department of Management Studies is committed to transforming the MBA students into contemporary business leaders, through sustained strategy of innovation, quality improvisation and value addition, thereby significantly contributing to all the stakeholders and by extension to the whole of the society. The Department of Management studies regularly organizes conference, FDP's and Workshop for the benefits of Research Scholars, Faculty Members and Students. It also provides training programmes for different organizations and their employees at various levels, and students of various other engineering and arts and science colleges.

About the Conference

A case study is an account of an activity, event or problem that contains a real or hypothetical situation and includes the complexities you would encounter in the workplace. Case studies are used to help you see how the complexities of real life influence decisions. Analyzing a case study requires you to practice applying your knowledge and thinking skills to a real situation. To learn from a case study analysis, you will be 'analyzing, applying knowledge, reasoning and drawing conclusions'.

A good case has the following features: It is taken from real life. It consists of many parts and each part usually ends with problems and points for discussion and there may not be a clear cut off point to the situation, it includes sufficient information for the reader to treat problems and issues, it is believable for the reader.

Objectives

This conference provides an excellent opportunity to present the original cases and interact with others in a cordial atmosphere. Case writing skills can be improved with the tools and methods of teaching, and discuss a case in classroom. Original case studies in specific management domains are invited nationally from academicians, research scholars, professionals, consultants, students and others.

Call for Cases

This conference invites stimulating original, unpublished, related to real life events and situations research / teaching cases, case studies based on primary and/or secondary data, field studies, empirical data, or significant experience of learning in various facets of management. Cases are invited from the following areas but not limited to:

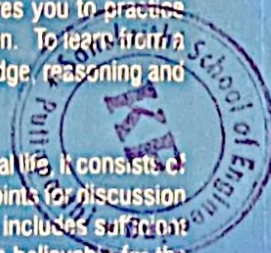

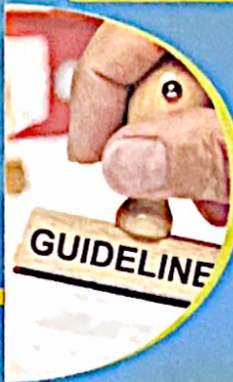

Marketing, Finance / Accounts / Banking / Insurance, Business / Social Entrepreneurship, Organisational Behaviour / Human Resource Management, Economics, Politics, Business Environment and Strategy, Total Quality Management / General Management, Hospitality Management / Health Management

Guidelines for Submission

- Manuscript should be in American English, A4 size, MS-Word Document with 2.9 cm. as left and right margin and 2.7 cm. as top and bottom margin. Font style should be Times New Roman and size 12.
- The author(s) are required to submit an original and unpublished case study which has not been submitted or discussed in any previous conference of any public forum.
- The cases can be based on primary or secondary data. The cases written with secondary data should mention all the sources of information and cases based on primary data must have organisational consent.

- Compact cases with 2-3 pages or cases with maximum 8-10 pages are preferred.
- Fully finished cases should have a comprehensive teaching note.
- Any issue of plagiarism will result in disqualification of case from the conference.
- Your Teaching note should have details on Case synopsis, target group, Learning objectives, Teaching strategy, Discussion questions with detail analysis, Background reading, Area of the case, Highlights and key points of the case study.

Send us your final case studies, teaching notes and further enquiry at bckec@gmail.com

The college is well known for its technical excellence, modern facilities, record of performance with excellent results and enterprising students.

Right from its inception in the year 1994, the Department of Management Studies at Kongu Engineering College offers the MBA Programme which is highly rated for its excellence, both in terms of imparting state of the art management education and inculcating social values to the students of the MBA programme. The department of Management Studies is committed to transforming the MBA students into contemporary business leaders, through sustained strategy of innovation, quality improvisation and value addition, thereby significantly contributing to all the stakeholders and by extension to the whole of the society. The Department of Management studies regularly organizes conference, FDP's and Workshop for the benefits of Research Scholars, Faculty Members and Students. It also provides training programmes for different organizations and their employees at various levels, and students of various other engineering and arts and science colleges.

About the Conference

A case study is an account of an activity, event or problem that contains a real or hypothetical situation and includes the complexities you would encounter in the workplace. Case studies are used to help you see how the complexities of real life influence decisions. Analyzing a case study requires you to practice applying your knowledge and thinking skills to a real situation. To learn from a case study analysis, you will be "analyzing, applying knowledge, reasoning and drawing conclusions".

A good case has the following features: It is taken from real life. It consists of many parts and each part usually ends with problems and poses for discussion.

Objectives

This conference provides an excellent opportunity to present the original cases and interact with others in a cordial atmosphere. Case writing skills can be improved with the tools and methods of teaching, and discuss a case in classroom. Original case studies in specific management domains are invited nationally from academicians, research scholars, professionals, consultants, students and others.

Call for Cases

This conference invites stimulating original, unpublished, related to real life events and situations research / teaching cases, case studies based on primary and/or secondary data, field studies, empirical data, or significant experience of learning in various facets of management. Cases are invited from the following areas but not limited to:

Marketing, Finance / Accounts / Banking / Insurance, Business / Social Entrepreneurship, Organisational Behaviour / Human Resource Management, Economics, Politics, Business Environment and Strategy, Total Quality Management / General Management, Hospitality Management / Health Management

Guidelines for Submission

- Manuscript should be in American English, A4 size, MS-Word Document with 2.9 cm. as left and right margin and 2.7 cm. as top and bottom margin. Font style should be Times New Roman and size 12.
- The author(s) are required to submit an original and unpublished case study which has not been submitted or discussed in any previous conference of any public forum.
- The cases can be based on primary or secondary data. The cases written with secondary data should mention all the sources of information and cases based on primary data must have organisational consent.

- Compact cases with 2-3 pages or cases with maximum 8-10 pages are preferred.
- Fully finished cases should have a comprehensive teaching note.
- Any issue of plagiarism will result in disqualification of case from the conference.
- Your Teaching note should have details on Case synopsis, writer group, Learning objectives, Teaching strategy, Discussion questions with detailed solutions. Background reading, Appendix.
